CANAL POINT

C. S. Moore got returns the letter part of last week from beans shipped to Albion & Company right after the December frost. Beans that were expressed by a man of town sold for \$9 a barrel and Fred Hand's shipment sold at 27.

A tug from Miami with a large from that place locked through Friday. On a large number of cots, concrete blocks, ornamental urns and flower pots. The tug man said the shipment was for E. L. Williamson of the Cleveland Building Supply Co. The Miami outfit joined the large load of seed cane Captain Lockhart was taking to Cleveland.

Roscoe Lee Braddock, who farms at Belle Glade, and on Torrey Island, was in Canal Point Saturday. He is living at Lake Worth since the hurricane and is awaiting the turn of events. Mr. Braddock wants to set up on his Torrey land, which is in condition to farm, but is restrained by lack of a bridge.

The F. E. C. Railway Company's passenger car came in Saturday. The Palmdale correspondent of the Glades County Democrat says Rev. Wm. Jesse Thomas has the best track patch there. J. C. Darcy, who also preaches, pulled a bean crop through the frost. The correspondent says that "if we had more preachers, our agricultural interests would be developed better."

CATHOLIC SERVICES

Father Gabriel of Fort Pierce will conduct services at S. J. Thibodeau's residence next Sunday morning at 11:30. On the Sunday following (Jan. 20) the hour of service will be 9 a. m.; and on Sunday the 27th, it will be 11:30. The hour changing between 9 and 11:30 every other Sunday. Father Gabriel serves the three congregations: Fort Pierce, Okechobee and Canal Point.

Dr. Brandes Expected At Test Station Soon

Dr. E. W. Brandes, senior pathologist in the bureau of sugar plant investigation in the Department of Agriculture, who returned recently from an expedition trip to New Guinea, is expected to visit the Canal Point cane testing station shortly.

His visit to the South Sea island in search of new varieties of sugar cane has been widely commented on in articles in daily newspapers and magazines. An article in the February number of Popular Science Monthly, illustrated with a picture of Dr. Brandes at work in a laboratory, says:

"One of these days you may be sweetening your cereal, or your coffee, with an entirely new brand of sugar—scouted for by airplane, found by a searching party crashing through the brush of New Guinea's wilds, and brought back to this country with 160 other varieties by Dr. E. W. Brandes, sugar plant specialist of the U. S. Department of Agriculture."

"Cuttings of the new sugar plants, with which Dr. Brandes has just returned from this tropical Pacific island north of Australia, have been planted in the Government agricultural station at Rosslyn, Va. At the end of a year new cuttings from these plants will be taken to the cane fields of the Southern States to see if one of the many varieties will prove resistant to the curious mosaic disease that menaces native crops."

"It will be several years, Dr. Brandes says, before it will be known whether any one of his new varieties is disease proof, but there is good reason to believe that some of them, or some hybrid produced from them, may revolutionize the sugar industry."

"One of the varieties that Dr. Brandes found grew to a height of thirty feet. It is not rich in sugar but might prove useful for grating purposes."

The expedition was the first ever to prospect for new plant life by airplane. In all, Dr. Brandes and his party traveled 16,000 miles by plane, 700 miles by canoe, and 400 on foot. Many of the places he explored had never before been visited by white men. They are dense tropical jungles, and are inhabited only by a few wandering tribes of natives."

New Guinea is believed to be the ancestral home of all sugar plants, which have spread to other regions of the world by transplanting."

CANAL POINT HIGH SCHOOL NEWS

Editors:

Carolyn Meek
Ira Mac Smith
Elizabeth Stedry

Trips to Georgia during the Christmas holidays show that cupid was certainly at work. Mr. Revels, the high school mathematics teacher, and boy's coach, was married to Miss Willie Cooper of Mett, Georgia. They are at home at the Teachers' home.

Edna Jensen, one of our junior high school girls, was married to Earl Swain in Milledgeville, Georgia. They will be at home in Okechobee City.

The basketball team are working out fine now. The "Old Man Sunshine" has decided to do his bit. The team will play their first games of the season at Stuart, Friday night, January 11th at 7:30 p. m. The girls will play first. The city is high school is "Go to Stuart" and we plan to make things interesting for the teams there. We expect that Vera Todd, one of our best forwards, will not be able to play on account of flu. Even though she can't play, we will be able to give Stuart a good warming up.

Otto Vinsen and Clarence Underwood, two new High School students, have certainly strengthened the line-up for the boys' team. From all reports, the "Sun" team will have a stiff fight. Boost your team team.

John Ross was struck by the Louis City Wholesale Company truck from West Palm Beach last Wednesday, and received a fractured rib and a broken tooth. He is much better now and has returned to school.

NOTICE

To Stockholders of Bank of Canal Point
The regular annual meeting of the stockholders of the Bank of Canal Point will be held Thursday afternoon at 3 o'clock p. m. on January 10, 1929. Meeting to be held in the bank building at Canal Point.

Take due notice thereof.

J. B. Elliott, Jr., suffered an attack of appendicitis Friday and was taken to the hospital in West Palm Beach Sunday where an operation was performed. He was resting easily.

Mr. and Mrs. J. C. Meek and family motored to Arcadia Sunday taking their son Eugene back to school.

Judge Duggan and friend, Mr. Meyer of West Palm Beach spent a day in Pahokee last week and enjoyed a hunt with Postmaster George C. McFarland and R. Robinson.

W. H. Long has returned from several weeks in the flatwoods. Mr. Long said hunting under an all-night light when he could prepare breakfast.

Mr. and Mrs. G. T. Clements of Arcadia visited Mr. and Mrs. J. C. Meek last week.

Mr. and Mrs. M. C. Keen, new residents of Pahokee, have moved to the J. E. K. Cash Grocery in the new Hendricks building.

J. E. (Jimmie) Hayden, who was connected with the Wallis Engineering Company office in Pahokee before the September hurricane, has returned from Tallahassee where he had been doing office work for the firm.

Among the new residences being finished under construction is the home of Mr. and Mrs. S. W. Powell, Capt. T. A. Bass, Harry Shepard, and a tenant house of A. H. Hughes. R. C. Rhine is rebuilding his store opposite the school building.

Paint is being applied to the interior trim and walls of the new Pahokee Drug Company building and it is expected that it will be ready for occupancy soon.

POST OFFICE IN NEW QUARTERS
Postmaster George C. McFarland has removed the Pahokee postoffice from

Exhibit Vegetables To Commission Merchants

Vegetables from Palm Beach county were exhibited at the convention of the National League of Commission Merchants held in Atlanta January 9 at the Baltimore Hotel. S. W. Hitt, county agricultural agent, and C. M. Todd of Pahokee had charge of the exhibit.

L. C. Keen, veteran produce buyer of Delray Beach, assembled a line of fancy cucumbers, squash, beans, lima beans, peppers and tomatoes. J. A. Baker of Delray, who is said to have the finest field of tomatoes in the county, sent a crate of his choicest produce. A. E. Fritz and Mark Borde of Lake Worth sent a fine assortment of cabbage, potatoes, broccolini turnips and green beans. The Pennekamp Plantations at Jupiter sent asparagus fern. Vaughan & Hoffman operating on Military Trail near Belvedere Road and on muck lands adjoining the East Coast Canal at Delray sent spinach.

The making of the exhibit at Atlanta grew out of a conversation between C. M. Todd of Pahokee and the members of The Everglades News, who saw an opportunity to call the commission men's attention to the fact that they could get in Palm Beach county practically all kinds of vegetables. Instead of having several buyers or solicitors stationed at many points, with corresponding expense and difficulty, the commission men can save expense and get better results in this region where supplies exist all through the winter. The board of county commissioners approved the idea and made an appropriation from the public fund.

WORK OF RED CROSS NEARING ITS CLOSE

The Red Cross moved another step nearer the closing of its activities in Palm Beach county when on Saturday the white tent colony on Lake avenue was vacated.

For some weeks, the families housed at the camp have been gradually leaving the site of the tent colony as they were rehabilitated on an independent basis. By Saturday only a few remaining families had left and tents were being taken down.

Excavation of the muck tent colony on Fifteenth street was accomplished Monday night. These two camps, established several days after the storm, have been the only remaining concentration camps in the storm area.

To date 750 per cent of all registered cases are reported to have been disposed of, leaving 24 per cent now in the greater number of which it is hoped to complete by January 20.

While waiting to replace, farmers have been advised to devote time to rebuilding and barns destroyed by the storm, according to the report. Their work has been delayed owing to labor shortage to date.

Gov. Carlton To Attend Clewiston Celebration

CLEWISTON, Jan. 10.—Governor Carlton, when the Wacahola band will play at Clewiston next Monday when Governor Carlton throws the switch officially starting the 125th anniversary of the birth of the Southern Sugar Company on its first grinding.

The band will make the trip to Clewiston by bus and will be on hand at the C. C. passenger station to greet the governor when his private car carrying the state's chief executive and his entire staff, arrived here Monday for the mill opening.

In the governor's car will be Governor Carlton, W. N. Knott, state treasurer, Fred H. Davis, attorney general, Ernest Amos, state comptroller, Nathan Mayo, commissioner of agriculture, and practically W. S. Cavities, state superintendent of public instruction.

Some twenty-four prominent Floridians are making the trip from the west coast to be present at the mill opening while from New York, E. C. Dahlberg, president of the Southern Sugar company will leave in a private car for Clewiston, accompanied by Senator William J. Tully, J. R. Landfield, Willis H. Booth, vice president of the Guaranty Trust company, Carter Field, William H. Crocker of the Crocker First National Bank of San Francisco and John H. Thomas of New York.

New Commissioners Hold First Session

The first meeting of the county commissioners for the new two-year term was held Tuesday and T. M. O'Neal of Delray was re-elected chairman. "Jabe" Boyd was re-elected county engineer.

Nedra M. Robbins was retained as attorney for the board and Dr. T. D. Gutter was re-employed as official physician and superintendent of the poor farm. The attorney for the board was authorized to prepare resolutions looking to refunding of county obligations.

STOCKHOLDERS MEETING

The annual meeting of the stockholders of the Bank of Pahokee will be held Thursday, January 24 at 7:30 a.m. at the banking house in Pahokee for the purpose of electing officers and the transaction of such other business as may be proposed by or come before the meeting.

E. G. KILPATRICK, JR., Cashier.

PAHOKEE JUNIOR HIGH

Editor: Park Wilder.
Assistant: Lois Crook, Marjorie Cochran and Uchea Jones.

Editor: Park Wilder.
Assistant: Lois Crook, Marjorie Cochran and Uchea Jones.

The Junior Red Cross met at the following athletic equipment of our school Tuesday morning. Two volley balls and a volleyball ball; two tennis rackets, six tennis balls and a court marker; six base balls, two bats and one catcher's mask; two basketballs, two goals and a foot ball; and two play ground bats and bats.

We received on Wednesday a shipment of library books from the Junior Red Cross. We were notified that these equipment would be sent later. Everything that we have received has been of highest quality, the kind of the basket balls alone amounting to \$38.

The boys are putting a fence around the school grounds so that they can play sports will not be cut off by cars, trucks and trucks. We expect to divide our space into different sections as is convenient. We have already been enjoying volleyball and indoor basketball games.

The gymnasium is now being set up for basketball practice. The girls for the windows have not been in, but we hope to have them soon. We expect to schedule several basketball games during the season.

Our school has joined the Florida High School Athletic Association. The best high schools of the state belong to this organization. They have rules of conduct and good sportsmanship to govern their members. In the spring we hope to have a basketball team.

The P. T. A. met at the school house last Friday afternoon. They took upon themselves the task of raising the \$10 which we must pay to join the Florida High School Athletic Association. They plan to present a play in the auditorium Thursday at 7:30 p. m. for this purpose.

Florida East Coast railroad between the bridge house and the station grounds where the grade suffered during the hurricane. All of the grade from the canal north to the Tyler place is pretty well protected by rock that was placed two years ago.

Bride of Two Months Suicide By Shooting
MOORE HAVEN, Jan. 7.—Mrs. Frank Curry, a bride of only two months, shot herself in the right temple with a small caliber revolver near her home here Friday afternoon and died before reaching Arcadia as she was being hurried to the hospital there.

Chief of Police Horace Howell found a clear case of suicide. The revolver was still clinched in her right hand

and a note found on her person addressed to her husband told everyone goodbye but failed to give any reason for her actions.

Mrs. Curry before her marriage was Miss Lily Belle Hancock, the daughter of Mr. and Mrs. Solomon Hancock of Okechobee. She married Frank Curry two months ago and the couple came to Moore Haven to make their home with Mr. Curry's mother, Mrs. W. J. Curry. The Currys have lived here for many years engaged in the fishing business. The family seems to be as mystified as everyone else regarding the reasons for ending her life. Acquaintances claim that she was devoted to her husband and he to her and that they had never quarreled.

At the request of her parents, she was buried in Okechobee Sunday afternoon.
